AUSTIN O'BRIEN TELLS HIS STORY ON WITNESS STAND

Preliminary Examination of Edward Flanagan Is in Progress in the Police Court.

The preliminary hearing of Edward Flanagan, charged with the murder of Richard Gorman, was begun before Police Judge Smith, sitting as a committing magistrate, this morning.

Ex-Judge A. L. Erick assisted District Attorney Allen in the prosecution, and Flanagan was represented by Attorneys Melvin C. Chapman, George E. De Golia, E. Flanagan and David McWade.

The first witness was Patrick Newell, a clerk in Austin O'Brien's grocery store, at Fourteenth and Franklin streets, where the shooting occurred. Newell told again the story of the fatal scuffle which resulted in Gorman's death, much as he told it at the coroner's inquest.

"I was in O'Brien's store on the evening of January 14th," said Newell in answer to questions propounded by District Attorney Allen. "I think it was about 9:30 o'clock when Edward Flanagan appeared and asked, 'Where's O'Brien?' I replied that he was not there, but Flanagan walked on to the door of O'Brien's private office. As he reached the door O'Brien came out and asked Flanagan what he wanted. With that the latter raised his right hand, in which he held a revolver, and pointed the weapon at O'Brien.

"I caught Flanagan's wrist, forcing the weapon down. Gorman then caught O'Brien and shoved him into a grain room, while I took Flanagan outside. When we reached the door I released Flanagan, whose arm I had been holding, and he walked away and stood about six or seven feet from me.

"A few seconds later Gorman came out and he and Flanagan began scuffling. It was during this scuffle that the fatal shot was fired.

"Were there any strangers in the store when Flanagan entered?" asked Chapman upon cross-examination.

"I don't think so," was the reply.

"Did any one come in before you escorted Flanagan out?"

"I don't know."

"How long before Flanagan appeared did O'Brien's store?"

"About ten minutes."

"Did Flanagan make any threats before he raised the pistol?"

"He did not."

"Did you use any force in taking Flanagan out?"

"No; I merely caught him by the arm."

"What was Flanagan's condition when he entered the store?"

"I judged that he was a little full and there was blood on his face."

"Did Gorman and Flanagan exchange remarks outside the store?" continued Chapman.

"They did not," was the reply.

"What were their relative positions when the shot was fired?"

"Flanagan was on the ground and Gorman was stooping over him."

"Was O'Brien present at the time of the shooting?"

"I think not. It was very dark, however. To the best of my knowledge, I do not think O'Brien was present."

In answer to further questions Newell said that Gorman was 25 years old, quick and strong and had the reputation of being an athlete.

On re-direct examination, District Attorney Allen questioned Newell closely regarding an electric light at Fourteenth and Center streets, his evidence being to show that there was sufficient light in front of O'Brien's store for the witnesses to see who fired the fatal shot.

"Are there any obstructions," he asked, "between the point where the men scuffled and that where the light was suspended?"

"Object to the question on the ground that there is nothing in evidence to show that the light was suspended," said Chapman.

"It's suspended, even if it's on a pole," said Erick.

"When you are hung or suspended, your feet won't touch the ground," retorted Chapman.

Judge Smith sustained an objection to the line of questioning on the ground that it was leading to a story which, regardless of any electric light, no other illumination was so dark for the witnesses to see who fired the shot or how it was fired."

"It was," answered Newell, and he was excused.

Dr. J. P. Dunn, who was called to the Receiving Hospital to assist in treating Gorman, and who assisted his brother, Dr. W. L. Dunn, at the autopsy, was the next witness. He said that at no time did he consider the patient had any chance in a hundred to recover. Everything possible was done for the wounded man, he said, but the physicians agreed that the wound was fatal. The bullet, he said, entered the abdomen and lodged in the back. He removed the bullet at the autopsy.

"What in your opinion, was the position of Gorman when he was shot?" asked Chapman.

"Judging from the nature of the wound and the tissues through which the bullet passed," was the reply, "I would say that Gorman was stooping over."

"The bullet was then offered in evidence. Austin O'Brien, in protecting whom Gorman was next called and he explained a plan of the store which was drawn by Attorney Erick.

"Did you and Flanagan meet five or six months ago and have some talk about shooting?" asked Erick.

"We did," answered O'Brien.

"What was said?"

"We object," said Chapman, "unless it can be shown that Flanagan made a threat against Gorman."

"But this is a material question," said Erick.

"The evidence shows that Flanagan left O'Brien's store peacefully," said Chapman, "and that three minutes elapsed before Gorman appeared upon the sidewalk. The street is a public thoroughfare and Flanagan was much right there as Gorman. What difference does it make whether Flanagan threatened O'Brien or not, so long as he threatened the man who was killed?"

"There should be some connection," said Judge Smith.

"We propose to show, your honor," said Erick, "that Flanagan threatened O'Brien five months ago; that the two met at Massimo's saloon and there was trouble; that thereafter they engaged in another fight on the street; that the defendant was escorted home by Massimo, but came back to the store and inquired for O'Brien; that not finding him, he proceeded to O'Brien's store, where the trouble occurred. It seems to me to be very material and connected."

"He may have made a thousand threats," said Chapman, "but the connecting link in the chain remains missing."

Judge Smith overruled the objection, and O'Brien answered:

"Well, he said, 'I'd shoot you if I had a gun, and I'll shoot you yet, O'Brien.' 'Where did you first meet Flanagan on the night of the shooting?' asked Erick.

"At Massimo's saloon."

"At Fourteenth and Center streets,"

SHOT THE GIRL WHILE RIDING.

PECULIAR CASE CALLED TO THE ATTENTION OF COFFIN OFFICERS.

ST. LOUIS, Jan. 17.—A special to the Post Dispatch from Coffin, Ill., says: "At 9 o'clock last night a horse and buggy stopped at Hart's Livery barn. There was no driver. The buggy was found to contain the dead body of Miss Gerty Clifford, who lived near Dixon, and Fred Brockman, almost dead.

Brockman was aroused from his unconscious state and put under arrest. The young lady's death was caused by an ugly wound through the temple. Brockman had shot himself twice in the back. He refused to say anything except that a letter could be found in the buggy to explain matters. The letter was found in his coveat. The coroner has not yet arrived and officers decline to make public the contents of the letter.

Miss Clifford was a member of a highly respected family near Dixon and was about 20 years of age. Frederick Brockman is 30 years of age, a son of Hiram Brockman of Coffin.

The letter, which was finally opened, was addressed to 'Kind Friends, Brother and Sister,' and signed 'Fred and Gerty.'

In it Brockman stated he was in debt and meant to commit suicide. He told the girl what he was going to do, and she declared she must go too. The last line of the letter contained a request from Gerty to be buried beside Fred.

AN EXTRA SESSION.

DENVER, Jan. 17.—Governor Orman announced today that he would issue a call tomorrow or on Monday for an extra session of the Legislature to consider the following measures:

The revenue bill, which must be re-passed in a form that will resist the attacks of the corporations.

The creation of one or more commissions with power to control and regulate corporations, especially the railroads.

The re-enactment of the employers' liability bill, with provisions for preserving it from thieves until it can reach the Governor's office.

The financing of the Gunnison tunnel and canal for irrigating purposes.

WILL HONOR THE PRINCE OF PRUSSIA.

Matter is Fully Dismissed at the Cabinet Meeting Today.

WASHINGTON, Jan. 17.—The time of the Cabinet meeting was largely occupied in the discussion of the formalities to be followed upon the occasion of the visit of Prince Henry of Prussia. It is the desire of the President to show the Prince the honor befitting him as a Prince of the royal blood and as the personal representative and kinsman of the German Emperor. But at the same time, the program is to be as simple as possible. Precedents in the case of the visits of the Prince of Wales and Duke Alexis of Russia have been carefully looked upon and will be followed where applicable. The program as far as agreed upon is as follows:

Upon the arrival of Prince Henry in New York he will be met by a squadron under the command of Rear-Admiral Evans, and national salutes of twenty-one guns will be fired both by the warships and by the shore batteries. Visits of courtesy will be made upon the Prince by the Commander of the Department of the East and the ranking naval officer at New York, and Assistant Secretary of State Hill will also formally welcome the Prince as the special representative of the President. When the Prince reaches Washington he will become the guest of the German Ambassador. According to precedent, it will be the duty of the Prince to call upon the President, who will return the visit. A dinner will be given at the White House in the Prince's honor. The details of the program will be worked out at the State Department and when completed will be given out there.

It was decided that all arrangements for Prince Henry's reception shall be confined to a special committee composed of Dr. David Jayne Hill, representing the State Department; Major-General Henry C. Corbin, representing the U. S. Army; Rear-Admiral Robley D. Evans, representing the Navy; and Count A. Von Quadt-Vydradsky, the German ambassador, representing the German Embassy. Col. Theodore A. Bingham, of the Engineer Corps, will assist General Corbin in the execution of the details and other army officers will be detailed if necessary.

BOERS DYING IN THE CAMPS

GENERAL BOTHA WOULD NOT SPARE THE BURGHERS WHO WOULD NOT FIGHT.

LONDON, Jan. 17.—A Blue Book issued today on the subject of the concentration camps in South Africa contains further detailed information from Lord Milner, the British High Commissioner, and Lord Kitchener as to the causes of the excessive death rate in the camps and the refusal of the charges of cruelty.

Lord Kitchener emphatically denies Commandant Schalkburg's allegations of forcible removal and exposure of pregnant women and of rough and cruel treatment of women and children, and says:

"I offered Botha to leave the families and relatives of fighting burghers in undisturbed possession of their farms if Botha would agree to spare the farms of the families of the surrendered burghers. Botha emphatically refused, saying: 'I am entitled to force every man to join and if they do not join to confiscate their property and leave their families to the sword.'"

The Blue Book gives statistics for the month of December last, when there were 17,047 inmates of the camps and 2,350 deaths, of which number 1,767 were children.

POSTOFFICE CLERK IS BLOWN UP.

KNOXVILLE, Tenn., Jan. 17.—J. B. Smith, a Postoffice clerk, was injured today by the explosion of a package of powder, nitro-glycerine or an infernal machine. He was standing letters and packages and a package addressed to a hardware house here exploded when struck with the stamp. Examination revealed on it the name of a smokeless powder concern. The intense heat of the explosion blew a tin box in which the explosive had been packed. The local hardware firm disclaims having ordered such a package and having been notified of its shipment. The postal authorities have begun an investigation. Arrests may follow.

OKLAHOMA CITY, I. MAHONY TOLD TO GO.

COUNTY CLERK IS SUSPENDED BY MAYOR SCHMITZ.

Injunction Issued and He Refuses to Give Up Office.

HOW RIORDAN WAS OUTWITTED

SAN FRANCISCO, Jan. 17.—As the result of his investigation into the charges preferred against County Clerk Albert B. Mahony, who is accused of having violated the purity of elections law, Mayor Schmitz last night suspended that official, thereby forestalling the action of Mahony's attorneys, who obtained a writ of prohibition this morning restraining the Mayor from proceeding further in the matter.

Attorney Riordan and County Clerk Mahony called upon Mayor Schmitz this morning and requested his Honor to notify them before any final action was taken, they in turn promising to hold all proceedings in abeyance, pending the Mayor's announcement.

About an hour later Attorney Riordan appeared at the Mayor's office and was immediately admitted to the private office.

"I have a surprise for you, Mr. Mayor," remarked Mr. Riordan.

"What is it, Mr. Riordan?" asked the Mayor, apparently eager for something more strenuous than the reception of ordinary visitors and routine work.

"An injunction restraining you from taking action in the Mahony case," replied Riordan.

"I have one for you, Mr. Riordan," quickly responded his Honor.

"What is it?" said Riordan.

"I have already taken action in the Mahony case," was the quiet reply.

Riordan demanded if his Honor had not promised to notify him of any action.

"How about your promise?" asked the Mayor, and the interview was at an end.

County Clerk Mahony said this afternoon that he did not propose to pay any attention to the Mayor's announcement, as he had not been notified of suspension and presumed that the court's restraining order would prevent the Mayor from serving notice.

THREE MINERS KILLED IN A CAVE IN.

JOPLIN, Mo., Jan. 17.—In a cave in at the Ada mine at Cartersville, near here today, three miners lost their lives, another was injured fatally and several others were seriously hurt.

The dead:

John Simmons.

Arthur Roberts.

Bruce Westfall.

The accident was caused by a premature explosion of dynamite which blocked the entrance to the mine. It took several hours' work by the men from adjoining mines before the imprisoned miners were reached.

The Ada mine is owned by a Chicago syndicate, Dr. Gundling of that city being superintendent.

OIL AT SAN DIEGO.

SAN DIEGO, Cal., Jan. 17.—Considerable excitement is being felt here over the report that oil has been struck in a well eight miles south of the city. It is true that oil has been found and that indications are promising for a valuable flow.

OAKLAND WILL NOW HAVE A HANDSOME NEW HOSPITAL.

Oakland is to have another hospital, which will be on a scale of completeness equal to the most modern institution of the kind either in the East or West.

It will be located at the intersection of Broadway and Twenty-sixth street and will be under Catholic auspices.

Sisters of the Sacred Heart, members of the religious order which has been conducting the seminary of the Sacred Heart on Webster street near Twenty-second, and who now teach in a number of parochial schools in this city, will have charge.

A corps of sisters who have been trained in relieving the physical ailments and comforting the afflicted in the East will be brought here specially for that purpose.

The order has purchased a site having a frontage of 200 feet on Broadway and 200 feet on Twenty-sixth street, with an option on adjoining property which may be required from time to time to admit of expansion of the institution.

The site which is now under the sisters' control will enable the erection of a large structure and, at the same time, admit of spacious breathing place on all sides. The structure which it is proposed to erect will be so designed that it may be built in sections, from time to time, the several parts when erected forming a harmonious and symmetrical design. The first building will be erected at a cost of \$50,000.

This enterprise was proposed some months ago, but the progress was retarded by the inability of the order to spare a sufficiently large force of skilled nurses from their ennobling work in Eastern centers. Difficulty in securing a site was also experienced. This has been overcome because the ground purchased is admirably located for hospital purposes, being free from contaminating surroundings near to the heart of town for emergency cases and easy of access to patients and friends who may desire to pay them a visit.

The hospital will dispense charity to the sick and ailing who are wanting in means and it will be able to answer all demands of people who are able to pay for all the comforts of a home.

Through under Catholic auspices, this hospital will be non-sectarian in the admission and care of patients poor as well as rich.

The erection of this hospital means much for Oakland. It will aid in bringing people from the interior here to be treated for ailment and injury and give this city a reputation for humanity which it now enjoys for education and refinement.

It means also the establishment of what is to be known as the Oakland College of Medicine, the project which was inaugurated some months ago, but which has been held in abeyance pending the consummation of the hospital project.

The college will be located near the hospital. Dr. D. D. Crowley, who is one of the projectors of the college, said today that there would be reciprocal relations between both institutions and that the college enterprise would now be pushed to a successful conclusion. The college will bring a number of students to this city from all parts of the coast and will put into activity several other enterprises, the beneficial effects of which will be felt by merchants and manufacturers of this city.

SIX HUNDRED KILLED IN EARTHQUAKE.

Mexican City Suffers Greatly From the Big Tremblor.

LAREDO, Texas, Jan. 17.—A telegram from the City of Mexico says a telegram has reached that city announcing that the city of Chilpancingo, in the State of Guerrero, suffered severely from yesterday's earthquake shock and that six hundred persons were killed. No details.

The shock of earthquake last evening was felt in many cities and towns of the Republic. In the City of Mexico the earthquake was felt at 5:17 P. M. The first movement was one of terribleness and was very sharp. It was followed by a gentler oscillatory movement north-northeast to south-southwest, the duration being 55 seconds. Beyond a few cracks in buildings no damage was done in Mexico City.

ROBBED BY FOOTPADS.

SACRAMENTO, Jan. 17.—John R. Dyer, a well-known farmer near Roseville, Placer county, who has been in this city for several days paying a visit to his daughter, was robbed last evening by two footpads.

Dyer reported the matter to the police. He says the hold-up took place at Twelfth and I' streets and the robbers secured a silver watch and chain and \$10 or \$12 in silver. He describes the robbers as being young men.

POSTPONEMENT OF THE FAIR IS A SURPRISE.

ST. LOUIS, Jan. 17.—The dispatch from Washington quoting President Francis as intimating that the Louisiana Purchase Exposition, scheduled for 1903, might not be held until 1904, was a great surprise at World's Fair headquarters here.

President Curran H. Spencer of the Louisiana Purchase Exposition Company, when shown the dispatch, said:

"I have received a dispatch from President Francis, saying: 'I have not talked of postponement nor admitted it at all.'"

CHAUTAUQUA OFFICERS.

BUFALO, Jan. 17.—The Board of Trustees of the Chautauqua Assembly has elected the following officers to serve during the ensuing year:

Chancellor—Bishop John H. Vincent, Zurich, Switzerland.

Superintendent of Instruction, Geo. E. Vincent of Chicago.

MONEY FOR EXPOSITION.

DES MOINES, Iowa, Jan. 17.—At a meeting of the Louisiana Purchase Exposition Committee held in this city today, it was decided to ask the Legislature for an appropriation of \$250,000 for the St. Louis Exposition. But three out of the twenty-four members favored a less amount. Much enthusiasm was manifested.

PASSING OF THE HERMITAGE, OLD TIME WAYSIDE RESORT.

A Famous Upper Fruitvale Hostelry Known All Over the State Closes Its Doors Because Liquor License Is Refused.

The Hermitage is no more. The house and garden are still there, but they no more constitute the Hermitage than an empty shell constitutes an oyster. It is only a memory—a thing that has faded out of existence, leaving its ancient habitation as a reminder of what it once was. The lights are out, the halls bare, the doors locked, and the sign "To Let" hangs at the portal through which a throng of revelers passed in the years gone to enjoy delicious little dinners and quiet tete-a-tetes far from the madding crowd and secure from prying eyes.

The real Hermitage was a combination of Leon Faure and a liquor license. It was a combination of a rare caterer with a Gallic cordiality that never over-stepped bounds and a discretion that was as wise as a serpent's and as simple as a Florodora maiden, and a prosaic legal permit to serve the juice of the grape to the guests who flitted in and out save for such recognition as the host gave in the wisdom of judgment. The license was taken away, and that was the prop that sustained the house. Without the vines and the liquors, and the cunning little drinks devised to sharpen the appetite, the tempting dishes Faure knew so well how to prepare had no one to eat them. What is duck without Burgundy or terrapin without Sauterne? So there was no longer the clink of glassware in the Hermitage, no popping of champagne corks, and no quiet suppers behind closed blinds; equipages and wheelmen no longer stopped at the door, and the tide of visitors went other ways where they could get their sup with their bite. Faure was left to mournfully contemplate his dismantled bar and deserted rooms.

When the Supervisors refused Faure his license, the life of his business was destroyed, and there was naught else for him to do but gather up his cooking receipts and face himself to some other place where public opinion is not so militant against places consecrated to good cooking and fine wines, and no questions asked. So he is gone from the Hermitage—never to return. The moral wave that has swept over Fruitvale has sent him forth, and has also decreed the closing of all the resorts in that vicinity. The Hermitage is advertised to let, but there is no longer any Hermitage. It passed away with Faure, who was the "atmosphere," as the literary critics say, of the place. He made it The Hermitage, and gave it its reputation, the subtle aroma that gave the viands their zest, the vintage its bluish and sparkle, and the simply furnished rooms their cozy warmth and attraction.

The Hermitage has been a famous hotel in its day. For more than twenty years Faure was its presiding genius. Men from all over the State have tasted its cuisine and enjoyed gay revels under its roof. It was a bit of the tendril amid the rural surroundings, an Americanized copy of the suburban restaurants on the outskirts of Paris. It was never a noisy place, although the patens were rather a mixed lot. Your good diner seldom engages in a brawl and is constitutionally opposed to disturbance, and the ladies who came there generally courted seclusion rather than observation. Many a dinner (Continued on page 7)

FUNERAL OF LATE COL. W. C. LITTLE

ELKS CONDUCT SERVICES AND REV. J. K. McLEAN DELIVERS EULOGY.

The First Congregational Church was crowded at 2 o'clock this afternoon, the time set for the funeral of the late Colonel William Coffin Little. The services were conducted by the local lodge of Elks, the simple but impressive ritual of that order being observed, and the eulogy was delivered by the Rev. Dr. J. K. McLean, a lifelong friend of Colonel Little.

Long before the time set for the services the church began filling with those who went to pay their last sad tribute to the memory of the deceased and by 2 o'clock all the organizations of which the late Colonel Little was a member were represented. The ushers were Charles F. Pugh, William Keating, J. H. Matthews and J. L. Callahan, all of whom were brother Elks of the deceased.

The ritual was read by Exalted Ruler Henry A. Melvin and the responses were made by Esteemed Leading Knight W. H. Halsey, and Esteemed Lecturing Knight L. A. Mason. Dr. McLean's eulogy was brief. After a prayer, he said in part: "My friends it has been made incumbent upon me to say a few words concerning the dead. I accept the task with sadness, yet with cheerfulness, for this man has been among the circle of my acquaintances—of my friends for more than twenty years. His home has been one of hospitality to me and mine, just as I have no doubt it has been to many of you and yours.

membrane of Mrs. W. J. Dingee. This offering was of rare orchids in relief against a wall of bright green palmage, lilies of the valley being entwined near a radiant bow of wide lavender ribbon.

The Major-General and staff of the National Guard were represented by a gorgeous shield of violets, barred with scarlet carnations and white narcissus. Frank J. Symmes, president of the Merchants' Association of San Francisco, on behalf of that organization, sent an immense violet wreath.

A handsome anchor of violets and maidenhead ferns was the tribute of M. Gregory, while the offering of F. S. Stratton was a large spray of violets caught with a bow of purple ribbon.

Wreaths and sprays were also offered in loving remembrance by Mrs. John L. Howard, Mrs. Chas. C. Olney, Arthur Cassele, Mr. and Mrs. Q. A. Chase, Mrs. John W. Dickinson, Mrs. George E. Arrowsmith, Mrs. J. C. Tucker, Frederick Poock, Mr. and Mrs. Geo. W. Dornin, Mrs. H. A. Williams, Mrs. O. K. Williams.

But above all these tributes embanking the bier, the place of honor was given on the face of the casket to a wealth of sprays and tiny bouquets which were brought to the house by the poorly clad people who had known the Colonel, and knowing him had loved him.

Some of these unpretentious tributes were withered by the clasp of hands roughened by daily toil and by the grasp of children's fingers.

These offerings, greeted by tears of sorrow, were placed near the one whose life had been to them that of a kindly friend.

The honorary pallbearers were Col. Chas. J. Evans, Joseph Ghirardelli, C. L. Ingler, William J. Dingee, Colonel Samuel D. Mayer, Colonel L. L. Brown, well-known Colonel Samuel J. Taylor, Colonel Leslie Hughes.

The casket bearers were six non-commissioned officers from Company F, N. G. C., and a squad from the same company marched by the hearse as an escort.

Among those present were: George W. Reed, Dr. W. H. Halsey, Dr. E. H. Woolsey, Harry Gordon, Judge Henry A. Melvin, W. J. Dingee, Webb N. Pearce, Captain W. R. Thomas, Geo. Hunt, George E. and shoved me into the grain room, coming in with me." "How long afterward did German leave the grain room?" asked Fitch. "About two or three minutes. He told me to stay there and wait out." "How long afterward did you leave the grain room?" "About two minutes." "Did you hear a shot?" "Where were you when you heard the shot?" "At the door of the grain room, coming out." "Did you hear anything else?" "Yes; I heard German cry, 'I'm shot; go, the doctor, quick, anything else?'" "Did you hear anything else?" "I don't recall anything else." The witness was then turned over to the attorneys for the defense, and court was adjourned until 3 P. M. for the noon recess.

THE TURF.

Jockey Willie O'Connor won the last three races at Emeryville yesterday, two by a marvelous display of horsemanship and riding the like of which probably has never been seen in California. His judgment of pace and finishing power in the handling of Autolight was wonderful and sparkled alongside of the slovenly work of Mounce on Position, who seemed to lose his head at the critical moment and went all to pieces. Again, in the race won by Siddons, O'Connor's judgment and skill at finishing won the money. It is doubtful whether any other rider here could have been among the first three at the finish with Siddons yesterday. The horse is a sulker, and passing the stand the first time he had his ears pinned down and acted as if he didn't care to run. O'Connor jolted him along for a mile, when he took it into his head to run, and then timing his effort nicely, the jockey landed him first by a nose.

BOXING.

"Young" Gibbs went against a first-class man last night and learned something. Incidentally he lost the decision and purse. Jack O'Brien, who has boxed successfully with the best men in this country of his weight, showed the local sports last night how he did it and gave Gibbs a few lessons in defensive work and jabbing that should put the colored lad on edge for his next contest. Gibbs lost nothing more than the decision by last night's contest. His courage and his willingness at all times to do the best he could were all with him in the ring, but he was up against a man more clever than himself and with a longer and more useful ring experience. There was a large crowd present and there was fighting to suit all. The preliminaries were won by Billy Woods, who defeated Henry Martin after three rounds of fighting, and Frank George, who bested Mike Sullivan. Jack Kitchin officiated as referee and his work was very satisfactory. The fights also were very satisfactory.

GERMANY'S WEAK SPOTS.

The troubles in Prussian Poland have been followed by signs of unrest in Alsace and Lorraine. Thirty years have elapsed since those provinces were torn from France by Germany, but the inhabitants are still French at heart. The effort to Germanize them has failed completely thus far, and does not promise to be successful in future. Which shows that you can lead a horse to water, but you can't make him drink. Although the people of Alsace and Lorraine are mainly German in blood they have always been intensely loyal to France. Many of the famous soldiers and statesmen of France were natives of one or the other of the provinces, and of Teutonic stock. Long before they were incorporated with France the people of Alsace and Lorraine had a sympathetic feeling for the Gallic nation rather than their own fatherland. At that time there was no German Empire, no united German nation—only the Holy Roman Empire, with an Austrian king of Bohemia at its head. Bismarck believed that the Lorrainers would re-assert their German nationality after a time, but he was mistaken. They are true to their German blood only in the stubbornness with which they refuse to assimilate with Germany.

The situation is different in Poland. The Poles are alien not only in thought and feeling but in blood and speech. They have always hated Prussia. In the days of the Polish monarchy, when Prussia was beginning to extend her dominion and influence, there was jealousy and antipathy between the two countries. Since the partition the Poles have remained a hostile people, held in repression only by military force. They would revolt tomorrow if there were any hope of success. Germany cannot depend upon them—even against Russia and Austria, who participated with Prussia in the murder of the Polish kingdom and the division of the Polish territory, and are therefore objects of Polish detestation.

A few years ago it was thought the Prussian Poles were becoming reconciled to their condition. That they would relinquish the dream of a reunited Poland, and cast their sympathies with the German Empire. But appearances were illusory. National aspiration has shown a vigorous revival lately. Open and turbulent manifestations of hatred of Germany and German rule have been of such frequency as to create a feeling of uneasiness among German statesmen.

It is significant that fermentation in Alsace and Lorraine, at the other extremity of the empire, should follow so closely on the disturbances in Poland. Here are evidences of internal weakness. England's experience with one Ireland illustrates the menace of holding a hostile people in subjection, but Germany has two Irelands—one over against the French frontier and the other on the borders of Russia. They do not tend to strengthen the empire.

When will the Associated Press quit handling that hoary old swindle, the discovery of American heirs to an estate of fabulous millions in Europe? It has been worked time out of mind, but the gudeons continue to bite at the glittering bait. No amount of exposure can prevent a certain percentage of idiots from putting up money for lawyers to establish their imaginary claims to mythical millions across the sea. But why should the Associated Press and reputable newspapers treat these foreign estate swindles as if they deserved any further attention than exposure? The latest thing in this line is an advertisement by alleged lawyers for American heirs to a trifle of \$130,000,000 or thereabouts in Holland. As a fact the estate is a syllabub.

Havana will soon be transformed into a modern city. A contract has been let to American contractors for sewerage and paving the city at an expense of \$10,000,000. When this work is completed Havana will be a clean healthy city instead of the pesthole it has been for three centuries. American sanitary engineers have declared that the city is not unhealthy, and that the enormous death rate is wholly ascribable to the unsanitary conditions which have been allowed to prevail. Henceforth trade with Havana will not carry with it the peril of yellow fever for the southern coast cities.

Frank Dunne, one of the prisoners in the City Prison failed to escape because he was so fat that he stuck in the hole crawling through. There is a useful hint in this incident for Sheriff Rogers. If he would feed all his prisoners up to the condition of Dunne perhaps he could hold them safely in jail. Let them grow rotund with high living and they will lose the ability as well as the desire to escape.

It is safe to say that the Kentucky Legislature will pay no attention to the silly request of the Daughters of the Confederacy to make it a punishable offense to play Uncle Tom's Cabin in the Dark and Bloody Ground. Some things are too absurd to be even considered.

SENATOR HOAR'S MISTAKE.

Senator Hoar makes himself ridiculous when he says "we are engaged in the Philippines in the unholy office of crushing out a republic." There never was a republic in the Philippines. The so called republic with Aguinaldo at its head was simply an irresponsible junta. Aguinaldo himself pursued the methods of an Oriental despot, and was notoriously venal. His conduct since his capture proves him to be a tricky, corrupt rascal ready to further his own advantage by any means however questionable.

True, a large number of Filipinos flocked to his standard during the war with the Spaniards, but that was a popular uprising against oppression. It was not an army called into being by government, nor did Aguinaldo's rule possess any semblance of republicanism, nor had it any claim to stability. Had the American troops withdrawn from the islands at the close of the Spanish war, it is morally certain that civil war among the natives would have ensued. Rival chieftains would have attempted to set up governments of their own, and endless strife and bloodshed would have resulted.

Senator Hoar's love of liberty and devotion to the principles enunciated in the Declaration of Independence cannot fail to inspire respect, but it is evident that his sympathies and idealism blind him to the facts of the case. His conclusions are drawn from false assumptions, but the apparent honesty of his purpose gives dignity to the manifest error of his judgment.

It is clear that the Filipinos are unfitted to govern themselves. It follows, therefore, that the United States had to do one of three things: hand them over to Spain, leave them to become the prey of foreign nations, or provide them with a government under our own flag. Reason and humanity alike teach that the better course was pursued—the one best calculated to restore peace and prosperity to the islands. In all likelihood there has been less turmoil and bloodshed than would have been the case in any other event.

TRUST EVILS.

Governor Cummins of Iowa has joined the ranks of the trust-breakers. In his inaugural address he pointed out that the general promotion of trusts had two beneficial effects. One is that it narrowed the field of competition and the other that the industrial combinations were inflated with watered capital. He said among other things: "My observation leads me to believe that many of the large industrial combinations would not have been proposed or effected had it not been for the knowledge that the promoters or organizers could make stupendous fortunes in the mere operation of consolidation."

This is undoubtedly true, and it is also true that paying interest on this inflated capitalization is a heavy tax on industry and consumption. For instance, the steel trust represents \$200,000,000 of pure water. When the plants were consolidated stock and bonds to this amount were issued and divided without paying in one dollar. At five per cent. this enormous sum draws \$15,000,000 annually from the people. It is a heavy tax on industry. Practically every other trust represents a large amount of fictitious capital. While destroying competition they constitute a dangerous financial element, for experience has demonstrated that few of them can stand a severe financial strain. In periods of depression they are likely to go to pieces spreading panic and demoralization abroad.

Governor Cummins is right in demanding that this wholesale stock watering shall cease, and that combinations in restraint of trade be repressed. His address is another evidence of the widespread opinion that the trust business needs to be dealt with speedily and with a strong hand.

Russia's complaint about American sailors fighting with Russian sailors in China indicates plainly who got the best of the scrap.

The ship subsidy bill is very bulky. There is a suspicion that it carries a good deal of swag.

PRISONER CAUGHT IN AN OPENING

FRANK DUNN SAYS HE WILL NEVER AGAIN ATTEMPT TO BREAK JAIL.

Encouraged by the success of the prisoners who have escaped from the County Jail, Frank Dunn, who is serving an eighteen months' sentence for petty larceny, last evening tried to saw his way out of the City Prison.

Dunn has been serving as the prison cook and during his leisure moments he made a saw from one of the butcher knives. With this he cut a bar an inch in thickness in a window on the north side of the prison, making an opening about seven by eleven inches. Through this aperture Dunn began to crawl, but he did not take his size into his calculations. He got his head and one arm through the opening and there he stuck. He could neither go forward nor retreat and after a time his position grew painful. Then he began to yell. Police Sergeant Green and Jailer Swain answered his call and tried to extricate him. They found their task a difficult one and the more they pulled at him the louder he yelled. Their efforts were finally successful, however, and Dunn, when he recovered from his pain, declared that he would never again attempt to gain his liberty.

EBELL LADIES PLAN

TO GIVE A LECTURE.

Henry Payot of the well known firm of Payot, Upham & Co. of San Francisco, has consented to repeat one of his talks taking lectures "Under the Leaves of the World—India," for the benefit of the Children's Library Fund. Mr. Payot is so interested in the work of Children's room that he has made this generous donation to the fund. The stereoscopic pictures that illustrate this lecture have been spoken of very highly by the clubs in San Francisco, who have heard Mr. Payot. Miss Pearl King, so well known in our Oakland society as a reader of much intelligence and sympathy, will further carry us into the land of King's Kingdom by giving some short readings from King which will give her much pleasant comment later in San Francisco. The lecture will be given Tuesday evening, January 21, in Ebells rooms. Each fifty cents passed in at the door will not only give a pleasant evening in India, but will help the ladies of Ebells to reach the \$5,000 mark necessary to furnish the children's room.

Five Dollars a Box

The Price Cut no Figure With Him.

"I want to say for the benefit of some poor dyspeptic that Stuart's Dyspepsia Tablets will give comfort and a cure every time. Five dollars a box would

not stop my purchasing them should I ever suffer again as I did for a week before using them.

"The one 50 cent box I bought at my druggist's did me work and my digestion is all right again."

"Many of my neighbors have also tried these tablets and found them to be just as represented, and Mr. Ellis also wants me to use his name in endorsing Stuart's Dyspepsia Tablets. Signed, A. ELLIS and CHAS. F. BUZZELL, Asst. Postmaster, South Sudbury, Mass."

Mrs. Jas. Barton of Toronto, Canada, writes: "For eighteen months I suffered from what I supposed was bladder and kidney trouble, and took medicine from three different doctors, without any sign of cure. I felt so ill at last I was hardly able to do my work. I tried a box of Stuart's Dyspepsia Tablets and see if they would make me feel better, never really thinking I had dyspepsia, but after only three or four tablets had been taken all the acid trouble disappeared and then I discovered I had acid dyspepsia, while the doctors had been treating me for kidney and bladder trouble and one of them treated me for rheumatism."

"My digestion is fine, my complexion clear and I am able to do my work and my spirits are unknown to me."

"I am so thankful for finding a cure so good and so pleasant to take as Stuart's Dyspepsia Tablets, I am surprised at the change they have made in me."

'SECRETS WOMEN KEEP AT THE PRICE OF SUFFERING.

A woman usually passes through several stages on her way to that condition of semi-invalidism which limits the activities of so many of her sex. For a time she suffers in silence and ignorance, not able to relate her sufferings to their proper cause—womanly disease. When, presently, she makes the discovery that her general health is related to the local womanly health, she casts about for help. She dislikes to see the physician, she shrinks from talking to a stranger of the intimate matters of her woman's life, and when at last misery drives her to the doctor, her modesty is up in arms at the faintest hint of examination, and she finds excuse to put the

matter off and goes home to endure another period of suffering.

It would seem a strange thing if the sacrifice of modesty were necessary to the restoration of womanly health. Such a sacrifice is not necessary. Women suffering from womanly ailments in almost all stages have found a perfect and permanent cure by the use of Dr. Pierce's Favorite Prescription.

A FREE OFFER.

To those women who suffer from disease of the chronic form, Dr. Pierce offers the privilege of free consultation by letter, thus avoiding the unpleasant questioning, indecent examinations and obnoxious local treatments deemed necessary by some local physicians. All correspondence held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

This offer of free consultation by letter should not be confused with offers of "free medical advice" which are made by persons without medical knowledge or experience, and who are barred, legally and professionally, from the practice of medicine. Though these people cannot practice medicine, because the law would be prompt to punish them, they can offer "free medical advice." Anybody can give advice without incurring the penalty of the law. It is well to remember, that the "medical" advice of an unqualified person, man or woman, is worse than worthless; it is absolutely dangerous.

As chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., Dr. Pierce, assisted by his staff of nearly a score of physicians, has, in a little more than thirty years, treated and cured hundreds of thousands of weak and sick women. Write, therefore, to Dr. Pierce, and get the opinion of a specialist upon your disease.

"About two years ago my health became very poor," writes Mrs. Winnie Hamilton, of Akron, Plymouth County, Iowa. "I suffered with pain and soreness in left side of abdomen and such bearing-down pains across me, that I scarcely slept at night, and would have to go to bed until I felt better. I was told by a physician that my complaint

October 15, while riding on one of the local trains, I was struck on the ear by the end of a car, and the result was that I was being closed by the gateman. The clutch pierced my ear and caused deafness, in little efforts to cure which he has expended \$500 for doctors and nurses and medicine. This deafness has caused great injury to his business in the sum of \$15,000, which he has lost by contract. About a year ago money he has been compelled to expend because of the accident."

OAKLAND WOMAN SAYS SHE HAS BUT ONE HUSBAND.
SARCE JOSE, Jan. 16.—A sensational divorce suit is being heard before Judge Hyland of the Superior court. The parties are Albert W. Geer of this city and Jessie M. Geer of Oakland, or, as she now styles herself, Mrs. Gus Videau. While she is claimed by the plaintiff in the suit as his wife, Mrs. Geer denies that she was ever married to him, but is the legal wife of another man, and claims that the plaintiff charges his wife with desertion, that he married Mrs. Geer in this city, January 14, 1895, by contract. About a year ago she left him and shortly after married Gus Videau, a former San Francisco policeman, in San Rafael. Geer wants the custody of a boy five years of age. The woman declares he has no claim upon the child.

SOCIALIST ORGANIZER

The Socialists of this city have employed M. W. Wilson as an organizer. In future the weekly central meetings are to be discontinued, and an effort made to have weekly meetings held by each of the assembly district clubs, with a general meeting held in the

was ulceration of the uterus, but I did nothing for it at the time, but as I gradually grew worse I began to see that I must do something, and having read a great deal about Dr. Pierce's remedies, I resolved to consult him in regard to my complaint. I did so, and received an answer advising me to try his medicines—'Favorite Prescription' and 'Golden Medical Discovery.' I procured the medicines as soon as I could and began the use of them. I have taken four bottles of 'Favorite Prescription' and two of 'Golden Medical Discovery,' and used also the local treatment advised by Dr. Pierce. I experienced relief almost from the first, as it almost immediately relieved the bearing-down pains, and in about two months' time I felt that my health was wonderfully improved. I can most heartily recommend Doctor Pierce's remedies to anyone suffering from any similar complaint, and feel sure that if they will consult Dr. Pierce, they need suffer no longer."

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It establishes regularity, dries disagreeable and unhealthy drains, heals inflammation and ulceration, and cures female weakness. It is the best preparative for maternity, giving mental cheerfulness and physical strength and making the baby's advent practically painless. As a tonic for weak, worn-out, run-down women and nursing mothers, 'Favorite Prescription' is unsurpassed. It is a pure vegetable preparation and cannot disagree with the most delicate constitution.

DON'T PUT IT OFF.
Do not delay the use of "Favorite Prescription" if you have any symptoms of womanly disease. Drag around for years, enduring useless suffering, when a remedy that has cured hundreds of thousands of weak and sick women is right within your reach? Get "Favorite Prescription," take it, and be well.

"When I first commenced using Dr. Pierce's medicines," writes Mrs. Geo. A. Strong, of Gauseport, Saratoga County, N. Y., "I was suffering from female weakness, a disagreeable drain, bearing-down pains, weak and tired feeling all the time. I dragged around in that way for two years, and then I began taking your medicine. After taking the first bottle I began to feel better. I took four bottles of Dr. Pierce's Favorite Prescription, two of 'Golden Medical Discovery,' and one vial of the 'Pleasant Pellets,' also used one bottle of Dr. Sage's Catarrh Remedy. Now I feel like a new person. I can't thank you enough for your kind advice and the good your medicine has done me."

"I have a sister who is taking your medicine, and it is helping her."

Whenever a laxative medicine is required, use Dr. Pierce's Pleasant Pellets with "Favorite Prescription," as they assist the action of that remedy.

Sometimes a dealer, tempted by the little more profit paid on the sale of less meritorious preparations, will offer a substitute for "Favorite Prescription" as "just as good." Judged by its records of cures of womanly ills, there is no other medicine just as good as "Favorite Prescription."

QUESTIONS ANSWERED.

The questions which many a woman longs to ask are answered fully and freely in Dr. Pierce's Common Sense Medical Adviser. This great book, containing more than a thousand large pages, is full of wisdom for women, both single and married. It is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers. Address Dr. R. V. Pierce, Buffalo, N. Y.

STEAMER PIEDMONT MEETS WITH MISHAP.

When the steamer Piedmont was on her way from this city on the 11:25 o'clock trip last night a break in her machinery occurred about five minutes after the boat had left her slip. She came to a stop about midway between the pier and Goat Island. Among the passengers on board great excitement prevailed. This was allayed by the explanation that while the steamer could not proceed on the trip she could not be towed back without much difficulty. The engines were reversed after a short delay and the steamer backed into the slip without further mishap. It took about thirty minutes to make the return trip, and after the landing was made the passengers were transferred to the steamer Oakland.

WILL BUILD THE NEW COLLEGE

PROMINENT PHYSICIANS DECIDE TO PROCEED WITH BUILDING OF INSTITUTION.

The movement, fostered by many of the most prominent physicians of this city, to build a large and thoroughly modern college of medicine and surgery, with a hospital attached, is progressing satisfactorily.

The leading physicians in the movement are: Doctors F. L. Adams, E. N. Ewer, W. F. B. Wakefield, D. D. Crowley, J. Maher, C. R. Krone, T. C. Cleave, Milton, Thomas, Easton and R. F. Stratton.

The medical men mentioned met at a dinner given at the Maison de l'Opera last evening and after a lengthy discussion the resolution to build at once was adopted.

A site on Grove street has been secured, the company incorporated, and nothing remains but the actual construction of the building which will be begun at once.

Drs. Porter, Rowe and Hamlin are also members of the faculty. The college will be a great boon for Oakland and will not doubt help the city to a large extent. It is an institution that ought to receive the help of every taxpayer in Oakland.

The physicians are digging down in their own pockets to raise the money to build the college. They ought to be given every encouragement.

WILL COME WITH PRINCE HENRY.

PROMINENT MILITARY MEN WILL COME TO UNITED STATES.

BERLIN, Jan. 17.—The Secretary of the Imperial Admiralty, Admiral von Tirpitz, and the chief of Emperor William's personal military staff, Gen. von Plessen, are to accompany Prince Henry of Prussia on the latter's visit to the United States. The other members of the Prince's suite, besides Vice-Admiral Baron von Seckendorff and Adjutant Baron von Schindt, and Von Egidy, whose names have already been announced, with Captain von Trotha, the Emperor's general aide-de-camp, Captain von Mueller and Commander von Gruenme.

His Majesty definitely made these selections after conference today, in which Admiral von Seckendorff took part, at the Old Schloss.

Admiral von Seckendorff visited Norfolk in 1890 on the Prussian warship Victoria, and was at San Francisco in 1872 on the old German warship Hertha, which has since been replaced by a new cruiser of the same name. The old Hertha was the first Imperial German warship to visit the Pacific Coast. She was at San Francisco after leaving Japan. Von Seckendorff has vivid recollections of San Francisco and his fortnight's entertainment there.

ALL PASSENGERS WERE SAVED.

STEAMER GOES DOWN, BUT FORTUNATELY ALL GET AWAY IN BOATS.

LUDINGTON, Mich., Jan. 17.—The Pere Marquette Railway Company's steamer No. 3 struck the bar at the mouth of the harbor early today in a heavy gale, and was entangled in nine feet of water. The nine passengers and the crew of thirty-five were taken off the wrecked craft by the life saving crew with their buoy apparatus. The No. 3 lies 150 feet from the end of the north pier and 200 feet from the shore with the great waves dashing over her decks. She is already a mass of ice.

The accident occurred before daylight. Passengers and crew were rudely awakened by the succession of shocks as the steamer pounded on the bar. Signals of distress were immediately blown and the life saving crew quickly responded. Running their mortar out on the pier, the life savers sent a line to the wreck. A heaver rope was then pulled aboard and when daybreak came there was a line 200 feet long stretched from the pier to the No. 3 and the breeches buoy apparatus was ready for use. Over this line the nine passengers, four of whom were women and the crew were safely taken in the breeches buoy in two hours. It was a thrilling rescue. As the people were drawn along the rope the great waves broke over them and all were drenched by the waves before they arrived on the pier.

The boat was loaded with 25,000 bushels of barley and 800 tons of merchandise. The stranding occurred almost exactly at the same spot where the car ferry Muckos was struck and wrecked three weeks ago. The Pere Marquette officials have hopes of saving No. 3 and her cargo, but there is great danger that the boat will go to pieces.

WILL POSTPONE THE EXPOSITION

ST LOUIS CANNOT GET FINE FOREIGN EXHIBITS UNTIL 1904.

WASHINGTON, Jan. 17.—The Louisiana Purchase Exposition, which was to have been held in St. Louis in 1902, will not take place until 1904. This fact was practically conceded by ex-Governor Francis, president of the Exposition Company, and Adolphus Busch, the financial agent of the company, at the White House today.

Since arriving here and conferring with the foreign representatives, Governor Francis and Mr. Busch have come to the conclusion that unless the exposition is postponed for a year they will not be able to secure the elaborate foreign exhibits which are desired. They find, for instance, that a great Japanese fair is to be given under government auspices in 1903, and if the exposition is postponed until 1904 everything of interest exhibited there can be brought to St. Louis the following year. It is the desire of the exposition officials that the foreign exhibits especially shall be very complete.

In 1900 we can make the exposition as great as any ever given," said Governor Francis, "but if we postpone it a year it will surpass anything in the exposition line ever attempted. We can be ready in 1903, but it is questionable whether we can secure from abroad what we want by that time."

In order to interest foreign governments it is desired of the exposition managers that the foreign agents of the exposition be appointed and accredited by the State Department, and steps are

DO NOT REPLY TO MR. COLLINS.

H. P. DALTON AND G. B. DANIELS NOT READY TO MAKE A STATEMENT.

G. B. Daniels, manager of the Oakland Enquirer, and County Assessor Henry P. Dalton, one of the stockholders of the corporation, returned from Sacramento last evening and went to the home of Dr. George C. Pender, where they held a conference for several hours in reference to the charges made against them by Banker D. Edward Collins.

After the conference both Mr. Daniels and Mr. Dalton stated that they had nothing further to say on the subject of the suit. They said that they had not been served with a copy of the complaint, and hence they could not answer the accusations in detail.

This morning Mr. Daniels reiterated his statement that he had nothing to say for the present, but would at once prepare for a defense of the action.

The Herald manager of the Enquirer, returned tonight from Sacramento. He said:

"Until I have been served with a copy of the complaint and know what is charged, I can say nothing. In due time and in the proper manner, I will be prepared to meet all of the charges that may have been made by Mr. Collins. Dalton, who is named in the complaint as one of the controlling owners of the Enquirer, said tonight: 'I shall not make any statement about this case until I have seen or have been served with the complaint. I want to know what I have to meet before I can take any position of talking about the matter.'"

**COUNCILMAN BON SCORES
THE TRANSIT COMPANY.**
**Declares That its Service is Vile, its
Cars Are Unclean, And its Tracks
Are Going to Ruin.**

Councilman Charles Bon took the opportunity last night, at a meeting of the Street Railroad Committee of the City Council, to score the Oakland Transit Company and its manager, W. F. Kelly, for the manner in which the street cars of the city are conducted. He did not mince his words, but declared emphatically that the Council should compel the company to furnish a better service.

The trouble arose over an ordinance allowing the Transit Company to abandon certain tracks on East Twelfth street, between Thirteenth and Park avenues. When the ordinance was read, Bon stated that it had been laid over to await the result of an interview which Councilman Hatch had been directed to have with the Oakland Transit Company's managers, to see if they could not be induced to run their San Pablo avenue cars down to First street instead of stopping at Seventh street, as at present. Bon moved that inasmuch as Hatch was not present, the matter again go over till the next meeting.

"Why lay it over," said Dornin. "We cannot force these people to run their cars to First street, and our action has all the earmarks of a big bluff."

"The property owners have some rights," said Bon.

"I'll admit that," said Dornin.

"Well," continued Bon, "we want the company to do its duty. You do insurance business. Do you want to lose business because a railway company does not do its duty. When I went to see Mr. Kelly he showed me a list of men who took the Broadway boat that was simply appalling."

"They want to abandon other tracks also. I understand that they contemplate abandoning six blocks of track in East Oakland. Is that fair? The property owners invested in property there because of the car line. I wouldn't live on Telegraph avenue today if it were not for the car line."

"In the case of East Oakland," said Councilman Wallace, "I think it would be to the advantage of the property owners if the tracks were abandoned."

"They want to convert all their lines into standard gauge," said Dornin.

"But they don't keep their tracks in repair," insisted Bon. "When the Electric Improvement Company had the Telegraph avenue line, it was considered one of the best roads in the State, and you could set your watch by the cars. So regularly did they run. Now the service is wretched and I ought to know, for I live on Telegraph avenue. Why, they don't even keep their cars washed. They ought at least be compelled to keep their cars and roadbed up to date."

"I'll admit," said Dornin, "that the service was better under the Pacific Improvement Company."

"But they don't allow them to abandon tracks would not improve their service," suggested Bishop.

"On the contrary," said Dornin, "I think the other course would be better. We could certainly secure more carriages from the company in the future."

"The Oakland Transit Company," he continued, "they run the cars on the sixteenth street and Alameda lines. And, again, all their cars are out of repair."

"All of which I admit," said Dornin.

"Their cars are dirty," interrupted Bon, "and their roadbed is rotten. They don't keep anything in proper condition."

"Don't they have a section gang on the Telegraph avenue line?" asked Dornin.

"No," they don't care a straw about it," replied Bon. "They don't even comply with the law which compels them to keep the roadway in repair on each side of the tracks. Right in front of my house the street beside the tracks is in a deplorable condition. I'm willing to do what is fair by any corporation, but I want them to treat us in good faith."

After some further discussion, the ordinance was laid over, pending a report from Councilman Hatch.

**COINAGE COMMITTEE
WILL SOON MEET.**

WASHINGTON, Jan. 17.—Representative Southard of Ohio, chairman of the House Committee on Coinage, is about to send invitations to a number of the chief manufacturers, merchants and others engaged in mercantile pursuits, to appear before the Coinage Committee on February 6th concerning the bill for the adoption of the metric system of weights and measures. Heretofore Congress has secured the opinions of scientific men on this subject, but Mr. Southard holds that such a change in the entire system of weights and measures is a practical question on which the large business interests should be heard. Among those to be invited are Vice President William McFarland of the Westinghouse Electric Company, Superintendent Vauclain of the Baldwin Locomotive Works, the electrical experts of several large concerns and the officers of a number of large woolen and textile industries.

**REV HOWARD SENT
TO THE PENITENTIARY**

DETROIT, Kan., Jan. 17.—Judge Swan of the U. S. District Court today sentenced Rev. G. F. E. Howard, who had previously pleaded guilty to using the mails to obtain money under false pretenses at Horton, Mich., to two and a half years in the Detroit House of Correction. Howard, who is well known throughout the country, was arrested by a United States Marshal in Columbus, Ohio, several months ago, as he left the Ohio penitentiary after serving a nine year sentence, and brought here. He made an eloquent and pathetic plea for mercy, but Judge Swan, although he was much affected by it, said that sentence must be imposed.

Howard was well known in Chicago and made his home in the aristocratic quarter in Washington Boulevard.

**CONTRA COSTA MAKES A
REPORT TO COUNCIL.**

**Manager Adams Tells About the
Bonds And Stock of the Corporation
—Amount of Water Being Used.**

Manager A. L. Adams of the Contra Costa Water Company filed a supplemental statement with the City Council last evening at the meeting of that body's committee on ordinance and judiciary, and was there to explain both that and the original statement, but there were only five members of the City Council present and it was decided to put the matter over until next Tuesday night, when the entire evening will be devoted to the question.

This decision was reached upon a motion from Wixson, who said that so long as all the members would wish to hear what Adams had to say, it would be useless for him to make his explanations to a few.

"We are heartily in accord with anything that will expedite matters," said Adams, "and will deem it a personal favor if you will try to do so. We have four or five municipalities fixing rates and I have to go before the legislative branch in each one."

It was then decided to take the matter up as a special order of business on next Tuesday night.

The supplemental report, which was filed pursuant to a resolution introduced by Cuvelier is as follows:

"The outstanding capital stock of the Contra Costa Water Company amounts to 49,028 shares, or \$100 per share par value, amounting to \$4,902,800. A large part of this stock was issued in part payment for the works purchased from the Oakland Water Company. Concerning the older issues the company has no record of the price at which it was sold."

"The company has outstanding bonds on account of the Oakland division of its property to the amount of \$3,056,000 par value; on account of the Alameda division \$600,000 par value; on account of the Berkeley division, \$500,000 par value. All bonds bear a five per cent. rate of interest. The company's bonds have been issued at par in part payment for the property purchased of the Oakland Water Company, and previous issues have been sold at, or slightly above par."

"The company having no official record of the amount of its expenditures for construction purposes previous to the year 1899, reference can only be made to the annual statements filed by it with the city annually for each year subsequent to 1899. Reference is also in this connection made to the report of the writer on the value of the Contra Costa Water Company's plant now on file with your honorable body. The appendix to the said report sets forth in detail the information here required up to January 1, 1900."

"It is impossible with the information at hand to determine the amount originally invested in structures which have since passed out of use."

"The company has no record or estimate upon the cost of duplicating its system in accordance with prices of labor and material prevailing at this time. Numerous estimates by various engineers, copies of which are on file with the City Clerk, were prepared but little more than a year ago, and you are respectfully referred to such records."

"For answer to the queries contained in this number, you are respectfully referred to the financial statement of the company but recently filed, which sets forth in great detail the information which you desire."

"Concerning the dividends paid by the company, you are also respectfully referred to the financial statement of the company, but recently filed, which sets forth in great detail the information which you desire."

"The company's method of accounting does not enable it to readily determine the amount of revenue separately collected through consumers without and without the city of Oakland. All portions of the company's plant, exclusive of that used for the supplying of the cities of Alameda and Berkeley, are classed as the Oakland division, and no notice is taken of the corporate boundaries of the city in keeping the accounts of this division. A careful investigation of this matter during the trial of the now somewhat famous case of the Contra Costa Water Company against the city of Oakland leads to the conclusion that about one-eighth of the total water consumed in the Oakland division was consumed within the city limits of Oakland, and seven-eighths within the city limits of Oakland. This ratio being the proportion stipulated in the contract mentioned."

"The total amount of water furnished for consumption to the Oakland division during the year 1901 was 1,451,758,000 gallons, amounting to an average of about 12,750,000 gallons per day. The company is unable to give the average for each month in the year, but will be able to do so for this year, 1902."

"There is at present on hand in Lakes Chabot and Temescal, so far as it can be estimated, 2,755,000,000 gallons of water."

"The daily capacity of the filters for purifying the water is a variable quantity, depending upon the character of the water in various seasons of the year. For average conditions it may be roughly stated to be about 10,000,000 gallons per day."

"It is impossible to say with exactness what the average collection per house in Oakland during the last month or any month of the year is, owing to the fact that no segregation is kept by the company between rentals received from house holders and those received for many other miscellaneous purposes, also owing to the fact before pointed out, that no separate account is kept of the revenue received from within and without the corporate limits of the city of Oakland, but so near as the same can be ascertained, the average for the actual number of services in use for the Oakland division, amounted to \$24.75 per house per month, or \$2.89 per month per house."

"The present assessed valuation of the property in Oakland, according to the 1901 assessment, is \$1,451,758,000. The amount paid in taxes during the last year is set forth in the company's financial statement previously referred to and now on file with the City Clerk."

"The company's record of street mains being kept without any regard to the quantities on any particular street, it is impossible to give information required without the expenditure of great labor."

PROF. MUNYON OFF FOR FLORIDA.

Prof. James M. Munyon, president of the Munyon's Homeopathic Home Remedy Company, and his son, James M. Munyon Jr., are off for Florida.

Prof. Munyon on his visit to Palm Beach last year became so infatuated with Lake Worth and the surrounding country that he purchased a number of magnificent building lots, fronting both on the Atlantic Ocean and on Lake Worth. These lots were of considerable value, and since his purchase have advanced very rapidly in value.

The most interesting and valuable purchase was a beautiful island, one mile long. This island is situated in the center of Lake Worth, and is one of the most beautiful spots in that part of the South. The water surrounding it is alive with fish. The pompano and sailfin Delight caught off Munyon's island are of a very peculiar and delicious flavor.

Around this island Prof. Munyon has made a beautiful drive, and on each side of the drive are palm and cocoanut trees.

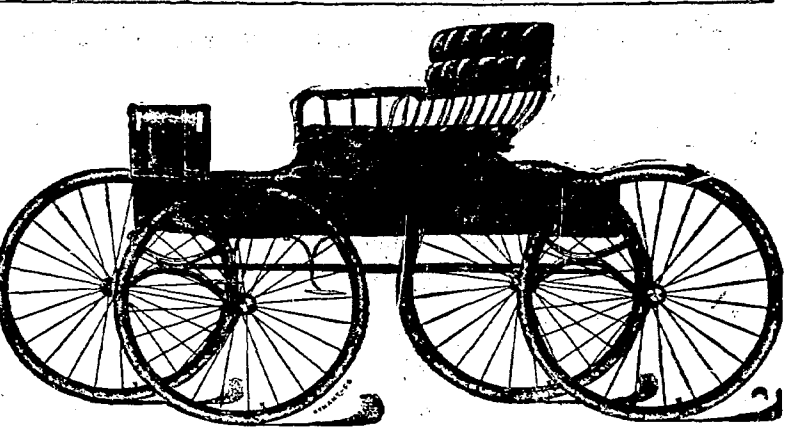

There are several buildings on the island, but Prof. Munyon, with his push and energy, has decided to build a magnificent mansion, which will be the finest private residence, without exception, in the State of Florida. He has laid miles of pipe from the main land to his island, in order to get sufficient water to sustain his floral gardens, and rare specimens of orange, pawpaw and papaya trees, also pineapple plants. Prof. Munyon has on his island two lemon trees, which bear the largest lemons known. He had these exhibited last year in the windows of his magnificent store, Broadway and Twenty-sixth street, New York.

If you are in New York this spring take a look in these magnificent windows, as Prof. Munyon intends to make a continuous display of the products of his island.

He also had exhibited at the same time radishes which were grown on his island, and they were so large that we had difficulty in convincing people they were actually radishes, as they measured about eighteen inches in length. The pineapples from Prof. Munyon's island are known far and wide for their delicious flavor. Nothing to equal them is grown elsewhere in the State of Florida.

Prof. Munyon employs on his island, all the year around, at least four men, who keep this island in first-class condition. He is having built a magnificent steam launch, in which he can take his trips along the Atlantic Coast, down the Indian River and in and about Lake Worth.

You or your friends should be at Palm Beach or thereabouts this winter. Prof. Munyon personally invites you to spend a few hours on his island, or better known as Dreamland.
